(54) Title: PRINT MEDIA WITH ATTACHED DATA STORAGE AND METHOD OF STORING DATA THEREON

(57) Abstract: A print has a substrate and a plurality of memory tags coupled to the substrate. The print is an index print including a plurality of images and a memory tag is associated with each image for storage of data relating to that image. A print medium suitable for forming such a print has a substrate with a printable surface and a plurality of memory tags coupled thereto at locations spaced apart over the area of the substrate. Alternatively, memory tags may be applied to a printed print medium. Methods of providing printed images with associated stored data are described.
